

CURRICULUM VITAE

NEGAR ELHAMI-KHORASANI

Associate Professor

Department of Civil, Structural and Environmental Engineering
136 Ketter Hall, University at Buffalo, Buffalo, NY 14260
+1 (716) 645-3019 negarkho@buffalo.edu

BIO SKETCH

Negar Elhami-Khorasani is an Associate Professor in the Department of Civil, Structural and Environmental Engineering at the University at Buffalo. Her primary areas of research are structural fire engineering, performance-based design of structures at high temperatures, resilience of communities under extreme hazards, including wildfires and earthquakes, and characterization of multi-hazard events and their effects on structures and communities. Her research portfolio includes large-scale physical experiments, computational modeling, and the development of fundamental theory for the evaluation and design of structures and communities facing extreme events. Her research products enhance safety and enable resilience by developing codes, standards, and guidelines and minimize losses by optimizing mitigation, preparedness, and response strategies. She has established national and international collaborations, including Johns Hopkins University, the University of California, Los Angeles, the University of Nevada, Reno, Princeton University, Ghent University in Belgium, the University of Trento in Italy, and the University of Queensland, Australia.

Her wildfire research has resulted in the development of a comprehensive framework for simulating fire spread in wildland-urban interface communities and conducting wildfire risk assessments. In 2023, her team modeled the Lahaina Fire on Maui in its immediate aftermath to analyze the drivers of loss. She is also involved in data collection and analysis of the 2025 Los Angeles wildfires and leads the modeling efforts. Her fire-spread framework is being adopted by officials in a Northern California city of 120,000 to enhance its Community Wildfire Protection Plans. Recently, she received a \$2.4M Department of Energy grant to refine fire spread models and implement a system for tracking fire arrival times to critical energy infrastructure.

Elhami-Khorasani was the co-chair of the ASCE/SEI Fire Protection Committee and is currently the co-chair of the SEAoNY Resilience Committee. She also serves on the Board of Directors of the [Applied Technology Council](#), which is an internationally recognized organization dedicated to advancing engineering applications to improve societal resistance to extreme natural hazards such as earthquakes, wind, floods, and fires. She is an associate editor of Fire Technology, the peer-reviewed journal of the National Fire Protection Association and the Society of Fire Protection Engineering. She is also on the editorial board of Reliability Engineering and System Safety and an associate editor of the ASCE OPEN. Elhami-Khorasani has served as an external committee member for Ph.D. degrees in the US, Italy, Germany, Hong Kong, and South Africa. Her research has been funded by the US National Science Foundation, Department of Energy, United States Geological Survey, National Fire Protection Association, Department of Transportation, and other agencies.

EDUCATION

Ph.D. Civil Engineering – Structural Engineering 2010-2015
Princeton University, Princeton, NJ, USA
Thesis: A Probabilistic Framework for Multi-Hazard Evaluations of Buildings and Communities Subject to Fire and Earthquake Scenarios
Supervisor: Maria Garlock

M.A.Sc. Civil Engineering – Structural Engineering 2008-2010
University of Toronto, Toronto, ON, Canada
Thesis: System-level Structural Reliability of Bridges
Supervisor: Paul Gauvreau

B.A.Sc. Civil Engineering (Honors) 2004-2008
University of Toronto, Toronto, ON, Canada
Thesis: Structural Reliability and Robustness in Probabilistic Design
Supervisor: Paul Gauvreau

PROFESSIONAL EXPERIENCE

Associate Professor, University at Buffalo, Department of Civil, Structural and Environmental Engineering, January 2022 – Present.

Assistant Professor, University at Buffalo, Department of Civil, Structural and Environmental Engineering, January 2016 – December 2021.

Postdoctoral Research Associate, Princeton University, Department of Civil and Environmental Engineering, July 2015 – December 2015: developed fragility curves for steel buildings under fire; worked with the Hazus and Ergo programs to study community resiliency under post-earthquake fires.

Research Assistant, Princeton University, Department of Civil and Environmental Engineering, September 2010 – June 2015: developed a probabilistic assessment of parametric temperature-time curves for office building fires; modified the source code of the OpenSees software for fire and fire following earthquake analyses of steel structures; performed risk analysis of steel office buildings under fire and fire following earthquake.

Research Assistant, University of Toronto, Department of Civil Engineering, Sept. 2008 - Aug. 2010: developed a working definition and mathematical characterization for the reliability of a bridge system; evaluated safety index of a conventional bridge system (three-span twin girder steel bridge); evaluated safety index of a new bridge system (double-T high-performance concrete bridge).

National Scholarship Research Student (NSERC-USRA), University of Toronto, Department of Civil Engineering, May 2008 - August 2008: prepared an annotated bibliography of available literature on robust structural systems.

Summer Intern (Engineer), TWD Roads - Carillion Canada, Toronto, Canada, June 2007 – August 2007: conducted weather analysis for material estimation; performed project evaluation and review of the progress for tender values; researched Anti-Icing and Road Weather Information System (RWIS) technologies; created highway maintenance work schedule with Microsoft Project; created/updated labor/material reconciliation spreadsheets.

Senior Structure Drafter, Ministry of Transportation Ontario (MTO), Toronto, Canada, May 2006 – August 2006: prepared bridge inspection Request for Proposal (RFP) documents; arranged location maps; bridge inspection data sheets and drawings; inspected bridges in Central Region, Ontario; created and updated Ontario Bridge Management System (OBMS) files.

Summer Intern (Engineer), Delcan Corporation, Toronto, Canada, May 2005 – August 2005: inspected bridges to identify erosion problems; obstructions to water flow and other general defects; prepared report of bridge inspection to be submitted to the City of Toronto; performed quantity estimating; moving coordinator of the structural department.

HONORS, AWARDS, AND RECOGNITIONS

University at Buffalo

UB's Exceptional Scholar: Young Investigator Award, 2021
Fire Protection Research Foundation Medal, National Fire Protection Association, 2020
AISC Early Career Faculty Award, 2020
Structural Engineering Institute (SEI) Young Professional Scholarship, April 2019
ASCE ExCEED Fellow, July 2016

Princeton University

Nominated by the Dept. of Civil and Env'l Eng. for the Graduate School Teaching Award, Spring 2013
Recipient of the Sherrerd Foundation Fellowship in the Dept. of Civil and Env'l Engineering, Fall 2013
Recipient of the Norman J. Sollenberger Fund, January 2012
Gordon Wu Fellow – Princeton University, Sept. 2010 - 2015
NSERC Post Graduate Scholarship (PGSD2), Sept. 2010 - Sept. 2012

University of Toronto

NSERC Post Graduate Scholarship (PGSM), Sept. 2008 - Sept. 2010
Beatty Fellowship Award, 2008 - Sept. 2009
Faculty of Applied Science and Engineering R.A. Downing Scholarship in Civil Engineering, Sept. 2007
Yolles-Bergmann Scholarship for 3rd year (Steel and Concrete) Structural Design Projects, Aug. 2007
Greater Toronto Sewer and Watermain Contractors Association Award in Civil Engineering, Aug. 2007
Nominated for Halsall Scholarship in Building Engineering, July 2007
Faculty of Applied Science and Engineering R.A. Downing Scholarship in Civil Engineering, Aug. 2006
Faculty of Applied Science and Engineering UMA Scholarship in Civil Engineering, Aug. 2006
Faculty of Applied Science and Engineering James Franceschini Foundation Scholarship, Aug. 2005
Rank 2 of the civil engineering class at the University of Toronto for seven semesters, 2004-2008
University of Toronto Admission Scholarship, Aug. 2004
Successfully attended Mathematics and Computer Olympiads at the national level in high school, 2002

STUDENT ADVISING

Ph.D. degree

- [1] Ramla Karim Qureshi, Ph.D., August 2016-February 2021, *Evaluation of steel columns under fire: Real-time hybrid fire testing and reliability assessment*.
Position: Assistant Professor, McMaster University, Canada.
- [2] Amir Sarreshtehdari, Ph.D., August 2017-August 2021, *Impact of fire following earthquake on urban environment considering the seismic performance of infrastructure networks*.
Position: Natural Catastrophe Specialist, Swiss Re, US.
- [3] Nan Hua, Ph.D., August 2017-August 2021, co-advised by Dr. Anthony Tessari. *Experimental and numerical assessment of fire damage to reinforced concrete tunnel liners*.
Position: Tunnel Engineer, Mott MacDonald, US.
- [4] Mohammad Syed, Ph.D., August 2019-August 2022, co-advised by Dr. Pinar Okumus, *Tessellated structural-architectural systems for rapid construction, repair, and disassembly*.
Position: Postdoctoral Researcher Fellow, Texas A&M University, US.
- [5] Rodrigo Napoleon Castillo Perez, Ph.D., August 2019-August 2023, co-advised by Dr. Pinar Okumus, *Assessment of the shear capacity and condition of cracked reinforced concrete beams using machine learning*.
Position: Structural Engineer, Thornton Tomasetti, US.
- [6] Fernando Jose Szasdi Bardales, Ph.D., August 2021-May 2025, *Wildfire damage assessment in wildland-urban interface communities*.

M.S. degree

- [1] Chenyang Fang, M.S., June 2017, *Performance-based fire design and the US prescriptive guidelines: A comparative study*.
- [2] Fernando Jose Szasdi Bardales, M.S., June 2019, *Understanding wildfire spread in wildland-urban interface communities*.
- [3] Mohammad Moeini, M.S., February 2020, co-advised by Dr. Pinar Okumus, *Finite element study on the lateral behavior of tessellated structural-architectural reinforced concrete shear walls*.
- [4] Mohamed Ezz Abdelmoneim Elsayed, M.S., August 2020, co-advised by Dr. Pinar Okumus, *Structural modeling of a medium density fiberboard tessellated beam*.
- [5] Juan Gustavo Salado Castillo, M.S., August 2020, co-advised by Dr. Michel Bruneau, *Seismic resilience quantification for a set of buildings*.

Dissertation/thesis in progress

- [1] Nima Tajik Hesaramir, Ph.D., January 2023-present, degree expected January 2027, *Post-fire damage assessment of reinforced concrete structures*.
- [2] Mohamed Ehab Salah Eldin Hassan Lasheen, Ph.D., September 2023-present, degree expected May 2027, co-advised by Dr. Pinar Okumus, *Evaluating prestressed concrete beams with cracks using machine learning*.
- [3] Nisha Nisha, Ph.D., January 2025-present, degree expected May 2029, co-advised by Dr. Andrew Whittaker, *Models for wildfire arrival forecasting and infrastructure resilience*.

Special achievements of graduate students

- Fernando Jose Szasdi Bardales: CSEE Graduate Research Award, 2025
- Rodrigo Castillo: UB Excellence in Research, Scholarship and Creativity Award, 2023
- Rodrigo Castillo: 1st place SEAS poster competition, 2023
- Rodrigo Castillo: 2nd place CSEE poster competition, 2023
- Mohammad Syed: SEI Futures Fund Scholarship, 2022
- Mohammad Syed: Best poster award, CSEE, UB, 2022
- Mohammad Syed: Structural Engineers Foundation Graduate Scholarship, 2021
- Nan Hua: SEAS Dean's Graduate Achievement Award, UB, 2021
- Ramla Qureshi: Best paper award and best presentation award at the 11th International Structures in Fire Conference, 2020
- Amir Sarreshtehdari: Graduate leadership award, CSEE, UB, 2020
- Nan Hua: Finalist for ACI Foundation fellowship, 2020
- Amir Sarreshtehdari: Third place presentation award, EERI competition, CSEE, UB, 2019
- Ramla Qureshi: American Association of University Women (AAUW) Fellowship, 2019-2020
- Fernando Jose Szasdi Bardales: Travel, research, and educational experience (TREE) grant, Association for Fire Ecology (AFE), April 2019
- Ramla Qureshi: SEAS representative at the 6th annual catalyzing advocacy for science and engineering (CASE) workshop in D.C., March 2019
- Ramla Qureshi: Chair's recognition award, CSEE, UB, 2019
- Ramla Qureshi: Best poster award, CSEE, UB, 2018
- Ramla Qureshi: UBEAA leaders in excellence award, UB Alumni Association, UB, 2018
- Ramla Qureshi: Recipient of the Mark Diamond Research Fund, UB, 2017

[9] Kaivalya Lal, Ph.D., Department of Civil, Structural and Environmental Engineering, July 2024.

External dissertation/thesis examiner at national and international universities

[1] Zheda Zhu, Ph.D. defense external referee, Department of Civil and Environmental Engineering, Lehigh University, United States, December 2019.

[2] Patrick Covi, Ph.D. defense external referee, Department of Civil, Environmental and Mechanical Engineering, University of Trento, Italy, May 2021.

[3] Max Coar, Ph.D. committee, Department of Civil and Environmental Engineering, Princeton University, United States, Fall 2017-Spring 2022.

[4] Faranak Figihi, Ph.D. defense external referee, Department of Civil and Environmental Engineering, Ruhr University Bochum, Germany, December 2022.

[5] Yanfu Zeng, Ph.D. defense external referee, Department of Building Environment and Energy Engineering, Hong Kong Polytechnic University, Hong Kong, August 2024.

[6] Darren Anthony Sulon, Ph.D. defense external referee, Department of Civil Engineering, Stellenbosch University, South Africa, January 2025.

Undergraduate research students

[1] Jarlene Rojas, *Quantifying lifeline dependencies under extreme hazards*, LSAMP Summer Research Internship Program, Summer 2016.

[2] Aysegul Sagmal, *Collecting an inventory and harmonizing bridge fragility curves for post-earthquake community assessment*, Spring 2017.

[3] Derek Johnson, *Post-blast fire resistance of low-rise buildings through membrane action of a composite floor*, Spring 2017.

[4] Akirah Matthews, *Compiling bridge fragility curves to assess seismic vulnerability*, LSAMP Summer Research Internship Program, Summer 2017.

- Selected to attend the 2017 LSMCE conference based on the research poster presentation.

- [5] Nayana Sreekumar, *Fundamentals of hybrid fire testing*, Summer Research Assistantship Program, Summer 2017.
- [6] Anshul Yadav, *Fundamentals of fire engineering*, Summer Research Assistantship Program, Summer 2018.
- [7] Jonathan Mann (co-advised by Dr. Pinar Okumus), *Fragility functions for tessellated structural-architectural systems*, NSF Research Experiences for Undergraduates (REU) program, Summer 2019.
- [8] Esther Saula, *Digitized fuel load survey methodology*, LSAMP Summer Research Internship Program, Summer and Fall 2019.
- [9] Gauhar Nurlybekova, *Digitized fuel load survey methodology*, Kazakhstan exchange student, Summer Research Assistantship Program, Summer 2019.
- [10] Riley Blasiak (co-advised by Dr. Pinar Okumus), *Small-scale testing of 3D printed TeSA shear walls*, NSF Research Experiences for Undergraduates (REU) program, January 2021 and Summer 2021.
- [11] James Lang (co-advised by Dr. Pinar Okumus), *Small-scale testing of 3D printed TeSA shear walls*, NSF Research Experiences for Undergraduates (REU) program, January 2021 and Summer 2021.
- [12] Victoria Ip, *Studying the correlation between community features and fire spread rate*, NSF Research Experiences for Undergraduates (REU) program, Summer 2022.
- [13] Makayla Pugliese, *Digital mapping of fuel in wildland-urban interface communities*, Spring 2023.
- [14] Victoria Pimenta Reyes, *Digital mapping of fuel in wildland-urban interface communities*, LSAMP participant, Spring 2023 and Fall 2023.
- [15] Abhi Ramtel, *Studying the correlation between structure features and wildfire damage*, Student of the Department of Computer Science and Engineering, Summer 2023.
- [16] Phuong Nguyen, *Creating illustrations to communicate structure hardening for wildfires*. Student of Environmental Design, Fall 2023.
- [17] Anjali Patel, *Fiber-reinforced concrete for precast tunnel liners*, UB EDI scholarship, Summer 2024.
- [18] Ishika Raj (co-advised by Dr. Pinar Okumus), *Interface design and algorithm training for shear strength predictions of concrete beams*, Intern from IIT Gandhinagar, Summer 2024.
- [19] Dana Sahib, *Collecting and analyzing building inventory data for testbed application*, NSF Research Experiences for Undergraduates (REU) program, Summer 2024.
- [20] Dana Sahib, *Mapping and analyzing the Lahaina Fire timeline*, Work study program, Winter 2025.

TEACHING EXPERIENCE

Instructor – University at Buffalo

CIE324 Structural Engineering II
Spring 2016 (#students: 48)

CIE416 Civil Capstone
Spring 2023 (#students: 62), Spring 2024 (#students: 43)

CIE428 Steel Design
Fall 2016 (#students: 93), Fall 2017 (#students: 51), Fall 2018 (#students: 63),
Fall 2019 (#students: 42), Fall 2020 (#students: 48), Fall 2021 (#students: 51),
Fall 2022 (#students: 44), Fall 2023 (#students: 61)

CIE500/CIE522 Design of Structures for Fire

Spring 2017 (#students: 32), Spring 2018 (#students: 17), Spring 2019 (#students: 22),
Spring 2020 (#students: 14), Spring 2021 (#students: 21), Spring 2022 (#students: 25),
Spring 2023 (#students: 7), Spring 2025 (#students: 11)

Instructor - Princeton University

MATLAB Workshop, Fall 2014

Assistant Instructor - Princeton University

CEE262 Structures and the Urban Environment – Course administrator, Spring 2015

CEE366 Reinforced Concrete Design, Fall 2011, 2012, 2014

CEE 461 Design of Large Scale Structures – Buildings, Spring 2013, 2014, 2015

CEE 361/MAE 325 Matrix Structural Analysis and Introduction to Finite-Element Methods, Fall 2012

Teaching Assistant – University of Toronto

CIV357 Building Design, 2010

CIV100 Mechanics, Fall 2009

CIV313 Design of Reinforced Concrete Structures, Spring 2009

CIV102 Structures and Materials, an introduction to design, Fall 2008

PROFESSIONAL ACTIVITIES

Leadership

Board of Directors, Applied Technology Council, 2023-present

Co-Chair, SEaONY Resilience Committee, 2023-present

Co-Chair, ASCE/SEI Fire Protection Committee, Oct. 2021-Sept. 2024

Organizing committee, Climate Adaptation Workshop: Structural Design for Coastal Resilience, Princeton University, May 16-17, 2024.

Scientific Committee, 5th International Fire Safety Symposium (IFireSS), 2024-2025

Scientific Committee, 13th International Conference on Structures in Fire (SiF), 2023-2024

Member of a technical advisory panel for a project supported by the Fire Protection Research Foundation of the National Fire Protection Association, 2023-2024

Organizing committee, 9th International Conference on Structures in Fire (SiF), 2015-2016

Organizing committee, Princeton Research Symposium, Princeton, NJ, 2013

Membership in professional societies

National Council of Structural Engineering Associations (NCSEA) Resilience Committee, 2024-present

ASCE Life-Cycle Performance, Safety, Reliability and Risk of Structural Systems, Task Group 2 on Reliability-based Structural System Performance Indicators, 2020-present

Joint Committee on Structural Safety (JCSS), providing input for updating the background document on fire for the Working Group 1: The Probabilistic Model Code, 2020-present

International Federation for Structural Concrete (fib) Task Group 2.3 on Fire Design of Concrete Structures, 2019-present

International Association for Fire Safety Science (IAFSS) Large Outdoor Fires and the Built Environment working groups, 2018-present

ASCE Fire Protection Committee, 2017-present

Professional services

Editor

Editorial Board, Resilient Cities and Structures, 2025-present

Associate Editor, ASCE OPEN: Multidisciplinary Journal of Civil Engineering, 2023-present

Editorial Board, Reliability Engineering and System Safety, 2023-present

Associate Editor, Fire Technology, 2022-present

Reviewer

SOM Foundation, Jury member, Structural Engineering Fellowship, 2025

Simpson Gumpertz & Heger Inc. (SGH), Peer reviewer for a research project, 2025.

Proposal reviewer for the International Joint Initiative for Research in Climate Change Adaptation and Mitigation - New Frontiers in Research Fund, Government of Canada, 2023-2024

AISC IDEAS² award, judge for the \$75 Million to \$200 Million project category, 2022

Proposal reviewer for the German Research Foundation (Deutsche Forschungsgemeinschaft), 2022

Proposal reviewer for the National Science Foundation, 2020, 2022-2024

Proposal reviewer for the Research Grants Council (RGC) of Hong Kong, 2019, 2020

Proposal reviewer for the Icelandic Research Fund, 2019

Journal Reviewer (a total of 136 reviews): Fire Technology; Fire Safety Journal; Engineering Structures; Journal of Constructional Steel Research; Journal of Structural Engineering; Reliability Engineering and System Safety; Journal of Structural Fire Engineering; Fire and Materials; Sustainable and Resilient Infrastructure; Advances in Structural Engineering; Automation in Construction; Journal of Building Engineering; Structural Engineering International; Soil Dynamics and Earthquake Engineering; Structure and Infrastructure Engineering; Structure and Infrastructure Engineering; Bulletin of Earthquake Engineering; Canadian Journal of Civil Engineering; Structural Safety; Journal of Earthquake Engineering; Environmental Management; Journal of Engineering Mechanics; Thin-Walled Structures; Data in Brief.

Session organizer

Conference session organizer for two sessions (a total of 8 abstracts) on “Understanding and Managing the Wildfire Problem”, the Engineering Mechanics Institute (EMI) Conference, Chicago, IL, May 2024.

Conference session organizer for two sessions (a total of 10 abstracts) on “Wildfire Engineering: Research and Practice in Wildland and Wildland-Urban Interface”, the Engineering Mechanics Institute (EMI) Conference, Atlanta, GA, June 2023.

Organizer of a panel on “Resilience through Fire Engineering”, SEAoNY Resilience Committee, virtual, June 2023.

Conference session organizer for three sessions (a total of 14 abstracts) on “Developments in Performance-Based Structural Fire Engineering”, the Engineering Mechanics Institute (EMI) Conference, Baltimore, MD, June 2022.

Conference session organizer for two sessions (a total of 10 abstracts) on “Characterizing Uncertainties in Response of Structures and Communities to Fire Hazard”, the Engineering Mechanics Institute (EMI) Conference and Probabilistic Mechanics and Reliability Conference, New York, NY, May 2021 (held online due to COVID-19).

Conference session organizer for two sessions (a total of 24 abstracts) on “Earthquake Resilience and Cascading Effects and Emerging Topics” and “New Developments in Structural Fire Engineering”, the Engineering Mechanics Institute (EMI) Conference, Pasadena, CA, June 2019.

Conference session organizer for a session on Structural-Fire Engineering: Past, Present, and Future, the Engineering Mechanics Institute (EMI) Conference, Boston, MA, June 2018.

UNIVERSITY SERVICE

Department level

Chair, Search Committee for CSEE, 2022-2023

Member, Two Search Committees for CSEE, Fall 2021

Member, CSEE Structures Curriculum Committee, 2021-2022

Member, Undergraduate Studies Committee, 2016-present

Organizer, CSEE Seminars, Fall 2021 and Spring 2022

Faculty Judge, Annual CSEE Poster Competition, Spring 2016, 2018-2020

School level

Co-Chair, SEAS Justice, Equity, Diversity and Inclusion (JEDI) Mentoring Subcommittee, Spring 2023-present

Reviewer, SEAS Justice, Equity, Diversity and Inclusion (JEDI) Research Micro-Grants, Spring 2023

Guest Lecturer, EAS202 Engineering Impact on Society, 2024 and 2025

Mentor, EAS202 Freshman Mentor Program, Spring 2016-2023
